How is cover art populated in the Wise web catalog?

Last updated: Mon, 04 Apr 2022 20:44:29 GMT

Applies to

- Web catalog

Answer

Wise utilizes WorldCat to populate cover art images for cataloged works. OCLC does not load cover art for individual titles due to the large volume of titles covered in WorldCat. Instead, we load large files from a variety of providers, with whom we have contractual relationships.

If you are an author or publisher, please make sure that you have supplied your most recent cover image to all your trading partners for the best chance at complete and accurate coverage of your cover image throughout the entire supply chain.
