Is there a way to block titles from appearing in OPAC search results by Media Type or Material Type?

Last updated: Wed, 08 Sep 2021 17:48:11 GMT

Applies to

• OPAC
• Wise staff client

Answer

Blocks can only be set at the item level. However, you can use Selections in the staff client to:

• Create a set of the items with the material or media type you want to block.
• Use the Batch edit function to set a Public block.
