Will a parent/guardian be able to see their child's account from home?

Last updated: Wed, 08 Sep 2021 19:11:03 GMT

Applies to

• OPAC

Answer

If the relationship between a head of household account and a child account has already been established, then yes a parent (as head of household) will be able to view the items checked out on the child's card. In order to do this the parent must have the child's card number, create a password and have an active email address.
